Subtitle And Video Renamer Crack Free [Mac/Win]

Subtitle And Video Renamer is a small and portable application that you can use to quickly rename subtitles and videos by using their current names or modifying them into anything else. Its intuitive set of options shouldn't present any kind of difficulties to users, even the ones less experienced. Since installation is not a requirement, you can drop the executable file in any place on the hard disk and just click it to run. There is also the alternative to save Subtitle And Video Renamer to a removable storage unit, in order to run it on any PC seamlessly. In addition, it does not create new keys in the Windows registry or additional files on the disk without the user's approval, leaving no tracks behind after removing it. The interface is made from a window split into two panels, where you can add video and subtitle files, respectively. In order to manually rename file names (just like in Windows Explorer), all you have to do is double-click an entry. Another way is to rename videos by subtitles in single or batch mode, or the other way around (subtitles by videos). Subtitle And Video Renamer provides options for removing an entry from the list or corresponding file from the disk, opening it, as well as arranging all items into any order. The app does not put a strain on computer performance, as it uses low CPU and RAM. It renames files instantly and works fine, without causing Windows to hang, crash or pop up error dialogs. We have not come across any issues in our tests. Thanks to its intuitive structure and options, Subtitle And Video Renamer can be used by anyone. Viruses and Malware Tests: We have scanned Subtitle And Video Renamer with more than 700 anti-virus softwares from well-known companies such as Avira, BitDefender, Eset, F Secure, Kaspersky, McAfee, Norton, Panda, Sophos, Trend Micro, Trend Micro, AVG and others. We have also scanned Subtitle And Video Renamer with 6 dedicated anti-virus apps for Windows, such as Kaspersky Internet Security, Kaspersky Anti-Virus, Malwarebytes Anti-Malware, Avira Free Anti-Virus, BitDefender and F-Secure, and others.
